

COOPERATIVE PRINCIPLES

POLICY 8-2

PURPOSE: To establish policies on cooperative principles.

INTRODUCTION:

Based on the area coverage concept wherein electric service must be extended to all prospective consumers in the franchise area provided that financial feasibility of the public service entity's entire population is not impaired, the cooperative, through the Board of Directors, hereby adopts the following policies:

POLICIES:

1. The power to be provided shall be dependable, reliable, and low cost that will add profitability to farming and industry, offer safety, sanitation and comfort in homes and develop the local economy.
2. The Cooperative shall operate on a non-profit basis for service in accordance with modern principles of management organization and sound human relations.
3. It shall develop among the members an understanding of their ownership, responsibilities and benefits in the cooperative, and acceptance of the cooperative's objectives and policies in the local communities.
4. It shall develop sound written policies and make informed decision on objectives, programs and basic controls for the cooperative.
5. It shall assure good working conditions for the cooperative's personnel and to provide the opportunity for maximum creativeness, personal satisfaction and sense of accomplishments for its efficient and effective operation.

IMPLEMENTATION:

The Board of Directors shall be responsible in the implementation of this policy.

APPROVED per Resolution No. 15-78 dated January 31, 1978.
