

NUMBERING OF EQUIPMENT

POLICY 5-3, as Amended

OBJECTIVE:

To establish a standard system for site and equipment identification to be compliant with the standards set in the Philippine Grid Code (PGC) and Philippine Distribution Code (PDC).

BACKGROUND:

As mandated by the PDC, a distribution utility is required to establish a standard system of site and equipment identification to be used in identifying any site or equipment in all electrical diagrams, connection point drawings, distribution operation instructions, notices, and other documents.

POLICY CONTENT:

1. All equipment owned by the cooperative shall be marked "BENECO" with the corresponding number for each type of equipment.
 2. Numbering of the equipment shall be coded as follows:
 - a. Distribution Poles – "B000001" the first character is a letter "B" representing BENECO then followed by six (6) unique numeric values.
 - b. Distribution Transformers – "B0001" the first character is a letter "B" representing BENECO then followed by four (4) unique numeric values.
 - c. Automatic Circuit Reclosers – "R0001" the first character is a letter "R" representing RECLOSER then followed by four (4) unique numeric values.
 - d. Circuit Breakers – "CB001" the first two (2) characters are letters "CB" representing CIRCUIT BREAKER then followed by three (3) unique numeric values.
 - e. Power Capacitors – "C0001" the first character is letter "C" representing CAPACITOR then followed by four (4) unique numeric values.
 - f. Disconnect Switches – "DS0001" the first two (2) characters are letters "DS" representing DISCONNECT SWITCH then followed by four (4) unique numeric values.
 - g. Power Transformers – "SS0001" the first two (2) characters are letters "SS" representing Substation then followed by four (4) unique numeric values.
 - h. Sectionalizers – "Z0001" the first character is a letter "Z" representing SECTIONALIZER then followed by four (4) unique numeric values.
 - i. Street Lights – "BC0001" the first two (2) characters represent the Municipality then followed by four (4) unique numeric values.

3. A blow-up plan of the whole distribution system shall be prepared indicating the location and code numbers of each equipment and the area coverage of each district; the capacity ratings of transformers, breakers, and reclosers shall also be indicated in the plan.
 4. There should be an Individual Equipment database to indicate the location, primary and secondary voltage ratings, equipment number, the capacity rating in

NUMBERING OF EQUIPMENT

POLICY 5-3, as Amended

the case of power and distribution transformers, the capacity rating in the case of power capacitors, the wattage of the street lights, relay settings of breakers, reclosers and sectionalizers.

5. The drawing, database and coordinates of the equipment will be integrated in the Geographic Information System (GIS) for speedy maintenance purposes and easier asset inventory.

PROCEDURES:

The implementation of this policy shall be governed by the provisions and requirements of the PDC.

RESPONSIBILITY:

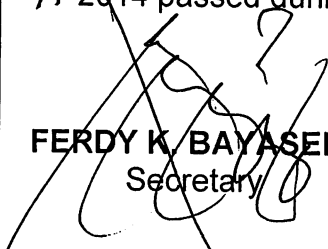

The General Manager shall be responsible for the implementation of this policy.

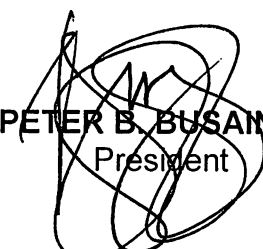

EFFECTIVITY:

This policy shall take effect upon the approval by the Board of Directors.

APPROVAL:

Amendment as approved by the Board of Directors through Board Resolution No. ~~77~~-2014 passed during its 1st Regular Board Meeting held on July 1, 2014.

RESOLUTION No. 77 - 2014

APPROVING THE PROPOSED AMENDMENT TO BENECO POLICY 5-3 ENTITLED "NUMBERING OF EQUIPMENT."

WHEREAS, the Engineering Department proposes that the policy on the numbering of equipment be amended as follows:

POLICIES:

1. All equipment owned by the cooperative shall be marked "BENECO" with the corresponding number for each type of equipment.
2. Numbering of the equipment shall be coded indicating the location, voltage rating, equipment number, and the capacity rating in the case of transformers, breakers, and reclosers.
3. The first number shall indicate the primary voltage, the second number to indicate the type of equipment, the third symbol, preferably in letters, to indicate the are or district locations, and the fourth number, the number of the equipment.
4. A blow-up plan of the whole distribution system shall be prepared indicating the location and code numbers of each equipment and the area coverage of each district; the capacity ratings of transformers, breakers, and reclosers shall also be indicated in the plan.

Proposed Amendments:

POLICIES:

1. All equipment owned by the cooperative shall be marked "BENECO" with the corresponding number for each type of equipment.
2. Numbering of the equipment shall be coded as follows:
 - a. Distribution Poles – "B000001" the first character is a letter "B" representing BENECO then followed by six (6) unique numeric values.
 - b. Distribution Transformers – "B0001" the first character is a letter "B" representing BENECO then followed by four (4) unique numeric values.
 - c. Automatic Circuit Reclosers – "R0001" the first character is a letter "R" representing RECLOSER then followed by four (4) unique numeric values.
 - d. Circuit Breakers – "CB001" the first two (2) characters are letters "CB" representing CIRCUIT BREAKER then followed by three (3) unique numeric values.

- e. Power Capacitors – “C0001” the first character is letter “C” representing CAPACITOR then followed by four (4) unique numeric values.
- f. Disconnect Switches – “DS0001” the first two (2) characters are letters “DS” representing DISCONNECT SWITCH then followed by four (4) unique numeric values.
- g. Power Transformers – “SS0001” the first two (2) characters are letters “SS” representing Substation then followed by four (4) unique numeric values.
- h. Sectionalizers – “Z0001” the first character is a letter “Z” representing SECTIONALIZER then followed by four (4) unique numeric values.
- i. Street Lights – “BC0001” the first two (2) characters represent the Municipality then followed by four (4) unique numeric values.

NUMBERING EQUIPMENT

POLICY 5-3

PURPOSE: To provide numbers on equipment for control and speedy maintenance purposes.

INTRODUCTION:

Numbering of equipment is very important for it indicates among other things, the location, voltage rating, equipment number, and the capacity ratings of transformers.

To facilitate the inventory of cooperative equipment and their maintenance, the Board adopts the following policies.

POLICIES:

1. All equipment owned by the cooperative shall be marked "BENECO" with the corresponding number for each type of equipment.
2. Numbering of the equipment shall be coded indicating the location, voltage rating, equipment number, and the capacity rating in the case of transformers, breakers, and reclosers.
3. The first number shall indicate the primary voltage, the second number to indicate the type of equipment, the third symbol, preferably in letters, to indicate the area or district locations, and the fourth number, the number of the equipment.
4. A blow-up plan of the whole distribution system shall be prepared indicating the location and code numbers of each equipment and the area coverage of each district; the capacity ratings of transformers, breakers, and reclosers shall also be indicated in the plan.

IMPLEMENTATION: The General Manager shall be responsible in implementing this policy

APPROVED per Resolution No. 15-78 dated January 31, 1978.
