

PROVIDING ELECTRIC SERVICE TO SUBDIVISIONS

POLICY 6-6-A-91

OBJECTIVE:

To provide guidelines in energizing distribution lines constructed other than authorized BENECO personnel and to define the obligation of the applicant.

POLICY:

It shall be the policy of the cooperative that before energizing distribution lines constructed by private contractors, the following requirements shall be observed.

PRIVATE:

1. A private subdivision/developer shall make a formal request for power connection accompanied by the corresponding electrical distribution system plan signed and sealed by a duly-registered professional electric engineer.
2. Electrical distribution built by the subdivision developer should be in accordance with NEA/BENECO standard and qualification of construction.
3. Maintenance of line and transformer shall be the responsibility of the developer unless the said distribution line is donated to and accepted by BENECO.
4. Until the homeowners has organized themselves into Barangay Power Association (BAPA), the subdivision developer shall pay to BENECO monthly energy consumed by the whole subdivision.
5. The applicant shall pay to the cooperative the required service fee as provided for prior to service connection.
6. Turn-over/donation of electric distribution line to BENECO could be accepted with the following requirements:
 - a. Electric distribution line system built by subdivision developer should be in accordance with NEA/BENECO specifications.
 - b. BENECO will have no liability in any expansion needed in the near future.
 - c. All units/site have accessible line.
 - d. turn-over of the system is only accepted through Deed of Donation; any expense incurred by the developer will not be compensated by the cooperative.
