

SERVICE CONNECTION

POLICY 6-3 (As Amended)

PURPOSE :

To establish guidelines for service connection pursuant to the (1) *magna carta* for residential consumers; (2) provisions of the Philippine Electrical Code; (3) provisions of the National Building code; and (4) ENERGY REGULATORY BOARD-95-21, as amended.

GENERAL POLICES:

1. Every consumer applying for service connection shall comply with the requirements of the cooperative including but not limited to the requirements of the local government units (LGUs), the Philippine Electrical Code (PEC), and the Energy Regulatory Commission (ERC).
2. It shall be mandatory for the cooperative to provide electrical service after the consumer has fully complied with all the requirement of the cooperative.
3. Every consumer applying for service connection shall be required to pay the corresponding bill deposit equivalent to his estimated monthly kilowatt-hour consumption but should not fall below the computed average consumption, as provided for below:

a.	RESIDENTIAL	:	108 kWh
b.	COMMERCIAL	:	800 kWh
c.	INDUSTRIAL	:	11,86 kWh
d.	PUBLIC BUILDING	:	954 kWh
e.	STREETLIGHTS	:	2,136 kwh
4. Bill deposits for residential customers shall earn an interest equal to what is provided for in the guidelines for the implementation of Articles 7, 8, 14, and 28 of the Magna Carta for Residential Consumers while for non-residential consumers, the provisions of ERB Resolution 95-21, as amended, shall apply.
5. Consumers with existing bill deposit but whose watt-hour meters are lost, damaged, or destroyed by causes not due to *force majeure* within the place of installation shall pay for the replacement cost of the meter. Replacement shall only be made after the consumer had paid the replacement cost of the meter.
6. Non-residential consumers are required to make a meter deposit equivalent to ONE-HALF of the present cost of electric meter and its accessories.

SERVICE CONNECTION

POLICY 6-3 (As Amended)

7. Twenty (20%) percent of the total bill and meter deposits by consumers shall be maintained in reserve fund to cover any withdrawal of bill and meter deposits; the remaining balance and any accrued interest thereon shall be used to maintain and/or purchase meters and its accessories, meter bases, service drops, and all other materials used in service connection.
8. All meters, including its accessories and service drops, shall be provided by the cooperative; provided however, that in the case of industrial and commercial connections, the cooperative can give an exemption if, upon inspection of these kinds of applications, it is determined that the materials needed are not ordinary in the inventory of the cooperative's warehouse.
9. In cases where the distance of 30 meters as provided for by Article 14 of the Magna Carta for Residential Customers for service connection, it is not met and the consumer is willing to construct the lines, the cooperative shall refund the cost of constructing the lines in a manner agreed by both parties. The manner of refund shall be contained in a MOA signed by both parties.

IMPLEMENTATION:

The General Manager is responsible for the effective implementation of this Policy.

This Policy consolidates Policy No. 6-3 (Electric Meters). Policy 6-3-1 (Deposit for BENECO kwh meters) and Policy 6-3-D (Requiring all applicants for service connection to make deposits for kwh meters and to buy their meter base, insulators and service drop from the Cooperative)

Approved pursuant to Board Resolution 718 dated 9-14-74

**KWH METER INSTALLATION ON NEW CONNECTIONS, SEPARATION OF
METER and/or ADDITIONAL METER, SINGLE METERING, TEMPORARY
CONNECTION AND CHANGE METER**

POLICY 6-3-B

As Amended

OBJECTIVES:

1. To define the installation of KWH Meters either for billing or monitoring purposes.
2. To limit investment of KWH Meters due to its unnecessary disposition.
3. To minimize KWH Meters to be read by Meter Readers, thus, reducing manhours on meter reading.
4. To cut down on cost of billing materials and shorten the billing process as well.
5. To discourage or prevent illegal connection.

POLICIES:

1. Installation of KWH Meters is allowed to newly-built structures which are not yet enjoying the benefits derived from electricity provided that the requirements set by the cooperative are all complied with; this is treated as new connection and its electrical services could be single or multi-metering.
2. Separation and/or additional meter installation shall be allowed only on the following:
 - a. Dwellings with separate kitchen and door of entry intended for residential or commercial purposes.
 - b. Added structures (separated by fire wall) to an existing building of the same owner upon his/her request only and not by a tenant.
 - c. If it is intended to distinguish consumption of a single-phase load from a three-phase load unless special metering is not applicable and likewise to distinguish consumption of a residential and commercial structure.
 - d. Loads serving different occupancies like water pumps, corridor lights, perimeter lighting, etc.
3. Single metering (mother meter) is required for uniclass or multi-occupancy establishments, e.g. condominiums, hotels, apartels, etc.; additional meters to be installed on these establishments shall be treated as sub-meters with the purpose to monitor consumption only and will not serve as basis for billing.

**KWH METER INSTALLATION ON NEW CONNECTIONS, SEPARATION OF
METER and/or ADDITIONAL METER, SINGLE METERING, TEMPORARY
CONNECTION AND CHANGE METER**

POLICY 6-3-B

As Amended

4. Installation of KWH Meters is allowed to TEMPORARY CONNECTION applicants for purposes of monitoring consumption and this is only applicable during construction, emergencies, or other terminal activities with pre-determined periods.
5. Change of meter is resorted to when the present meter is not capable of correctly registering the consumption of an existing load due to change in load and phase; this is likewise applicable when the existing meter is defective or damaged.

RESPONSIBILITY:

The General Manager shall be responsible in implementing this policy.

EFFECTIVITY:

This policy shall take effect upon approval by the Project Supervisor and/or the Regional Electrification Manager (REM).

Approved:

(SGD) ATTY. FULGENCIO A. VIGARE, JR.
Project Supervisor/REM I

CHARGING APPLICANTS for CONNECTIONS WITH A FEE IN THE RE-INSPECTION OF THEIR APPLICATIONS CAUSED BY NON-COMPLIANCE OF COOPERATIVE REQUIREMENTS

POLICY 6-3-C

OBJECTIVE : To cover expenses that would have incurred in the RE-INSPECTION of their applications for service connection.

POLICY : It shall be the policy of the cooperative to charge applicants for service connection with a fee in the RE-INSPECTION of their application caused by non-compliance of cooperative requirements.

PROCEDURES:

1. The applicant for service connection shall provide all materials recommended by the housewiring inspector during the conduct of the PRE-INSPECTION except for the KWH meter and its accessories which shall be provided by the cooperative upon payment of required fees.
2. It is understood that all materials are properly installed (except the KWH meter) as recommended by the inspector prior to FINAL INSPECTION.
3. If during the final inspection, not all requirements are complied with, the applicant shall be charged a Re-inspection Fee of One Hundred Pesos (P100.00) payable before the processing of his application.

RESPONSIBILITY:

The General Manager shall be responsible in the implementation of this policy.

EFFECTIVITY:

This policy shall take effect immediately upon the approval of the Project Supervisor.

APPROVED: (SGD) FULGENCIO A. VIGARE JR.
Project Supervisor
