

VARIOUS CUSTOMER CLASSIFICATION

Policy No. 01-2004

PURPOSE : To define the classifications of BENECO customers for clarity in matters where ambiguity of rate application may arise and to be able to determine the applicable rate for each type of customer.

POLICY:

1. RESIDENTIAL

Applicable to residential customers for all domestic in a single-family dwelling (dwelling unit is considered as having one kitchen) and to residences which are incidentally but not primarily used as rooming or boarding houses.

Multi-occupancy units (apartments and boarding houses) may be classified as "residential" only if the individual units are installed with its own kilowatt-hour meters.

Sari-sari store, greenhouse, ball mill and small income generating establishments integrated in a residential house having a common meter may be classified under "residential" if the computed average monthly consumption for the past six (6) months is not more than 100 kWh otherwise they will be classified as "commercial".

2. COMMERCIAL

Applicable to commercial and non-residential customers for general lighting, heating and/or power purposes such as but not limited to offices, multi-occupancy building which are primarily used as rooming or boarding houses with only one kilowatt-hour meter, hotels, welding machines/iron works, private clinics and hospitals, private schools, restaurants, barber shops, bakery, repair shops, wood working establishments, paint shops, gymnasiums, printing plants, refilling stations, private water delivery systems, water pumps, ball mills, and green houses.

3. INDUSTRIAL

Applicable to establishments using electricity in the conversion process of one product to another by-product such as but not limited to manufacturing, cold storage (ice plants, sash factory, crushing plants, mining refinery and power plants).

4. PUBLIC BUILDINGS AND FACILITIES

This applies to:

- a. government buildings and facilities
- b. government-owned hospitals

VARIOUS CUSTOMER CLASSIFICATION

Policy No. 01-2004
